Authorization for this examiner's amendment was given in a telephone interview with David Klein on 9/13/04.

Reasons for Allowance

4. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or fairly suggest a method of forming copper interconnects including oxygen-removing pre-process comprising heating the solvent to boil in an open container to remove dissolved oxygen therefrom and cooling prior to combining the solvent with the reaction solution to deposit a copper film by displacement. The prior art teaches removing dissolved oxygen from the reaction solution containing a solvent but not prior to as is claimed herein. Improved copper coatings with lower resistance are formed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
